

Mayonnaise Cake

This is my Grandmothers recipe from the Depression era when supplies, like eggs, flour and sugar were being rationed!

You will notice that there are no eggs in this recipe!

2 cups Self Rising Flour
1 cup of Granulated Sugar
4 Tablespoons of Cocoa
2 teaspoons of Baking Soda
Dash of salt

Mix this all together and then add, and mix well:

1 cup of Mayonnaise
1 cup of water
1 teaspoon of vanilla

Bake at 350 degrees in a 9 by 13" pan for 20 to 30 minutes

Do Not Over Bake!!!

Fudgy Frosting

1 ½ cups of sugar
4 Tablespoons of Cocoa
4 Tablespoons of Cornstarch
1 teaspoon vanilla
2 Tablespoons of Butter

Mix sugar, cocoa and cornstarch together then add 1 ½ cups of water and cook till thick. Add the vanilla and butter. Mix well till butter is all melted and mixed. Pour over hot cake.

This is a very yummy chocolate cake!
